

# An Introductory Guide to EC Competition Law and Practice: Ninth Edition

Professor Valentine Korah's widely respected book on EC competition law and practice, which, for many years, has been used by practicing lawyers and law students, as well as officials. The book has kept pace with the rapid development of the subject. Its description of economic theory and the policy considerations which underpin the law - and its enforcement - are even more important in the era of modernization, when the enforcement of competition law has become decentralized to the Member States. The book's analysis and trenchant comment on the legislation, case law, and policies have had some influence on the development of the law, a fact acknowledged by many experts in the subject. Despite the complexity of the topic, this remains a lucid and readable overview which is ideal for newcomers to the subject.

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended

concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
