

# Natural Law and Natural Rights (Clarendon Law Series)

First published in 1980, *Natural Law and Natural Rights* is widely heralded as a seminal contribution to the philosophy of law, and an authoritative restatement of natural law doctrine. It has offered generations of students and other readers a thorough grounding in the central issues of legal, moral, and political philosophy from Finnis' distinctive perspective. This new edition includes a substantial postscript by the author, in which he responds to thirty years of discussion, criticism and further work in the field to develop and refine the original theory. The book closely integrates the philosophy of law with ethics, social theory and political philosophy. The author develops a sustained and substantive argument; it is not a review of other peoples arguments but makes frequent illustrative and critical reference to classical, modern, and contemporary writers in ethics, social and political theory, and jurisprudence. The preliminary First Part reviews a century of analytical jurisprudence to illustrate the dependence of every descriptive social science upon evaluations by the theorist. A fully critical basis for such evaluations is a theory of natural law. Standard contemporary objections to natural law theory are reviewed and shown to rest on serious misunderstandings. The Second Part develops in ten carefully structured chapters an account of: basic human goods and basic requirements of practical reasonableness, community and the common good; justice; the logical structure of rights-talk; the bases of human rights, their specification and their limits; authority, and the

formation of authoritative rules by non-authoritative persons and procedures; law, the Rule of Law, and the derivation of laws from the principles of practical reasonableness; the complex relation between legal and moral obligation; and the practical and theoretical problems created by unjust laws. A final Part develops a vigorous argument about the relation between natural law, natural theology and revelation - between moral concern and other ultimate questions.

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote. Im shaking apart inside Tremors that are too fine to be seen or felt Maybe i can hear them though? If I listen v carefully Cool. Im not really sure why. Maybe minds are meant to fall apart when theyre as delicately stitched

together as mine? Ooh or Im picking at the metaphorical seams because Im just so godsdamned bored! Yas. Lets make this an intentional thing Consequences of choices are always easier to stomach Even if theyre shitty Mm. Learn to trust your audience, right? Youre all such bright young things.
