

Advertising: A Very Short Introduction

John Wanamaker famously observed that half the money I spend on advertising is wasted; the trouble is, I don't know which half. Indeed, though advertising is pervasive in our society, how it works (if and when it works) is not a question most of us can answer. In this Very Short Introduction, Winston Fletcher, a seasoned advertising veteran with extensive inside knowledge, offers an illuminating look at this billion-dollar business, dispelling some of the myths and misunderstandings surrounding the industry. Fletcher offers a short history of advertising and explains how the industry works and how each of the parties--the advertisers, the media, and the agencies--contribute to the process. He also looks at the financial side of advertising and asks how today's Wanamakers know if they have been successful, or whether their money has in fact been wasted. The book concludes with a discussion of controversial and unacceptable areas of advertising, such as advertising aimed at children and the promotion of products such as cigarettes and alcohol.

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
