

The Protection of the Underwater Cultural Heritage Before and After the 2001 UNESCO Convention (Publications on Ocean Development, V. 41)

The 2001 UNESCO Convention on the Protection of the Underwater Cultural Heritage represents a major step forward in the field of international law. New archaeological rules as well as a comprehensive co-operation system among the States concerned are set up by the new Convention. Despite the negative attitude assumed by few States at the moment of voting for the text of the Convention, this new international instrument is welcome by the great majority of States. This volume focuses on the main aspects of the Convention. It is divided in two parts, to describe the situation before and after the adoption (and the forthcoming into force) of the Convention. In the first part the contradictions resulting from the regime established under the 1982 United Nations Convention on the Law of the Sea are analysed together with the undesirable results of the application of the rules of admiralty (law of salvage and law of finds) to the underwater cultural heritage. In the second part the negotiation process is described, both in its general aspects (the myths surrounding the draft) and in its specific results (the drafting of each single provision).

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
