

# The Anatomy of United States Oil Pollution Act of 1990

This treatise is to undertake a painstaking textual anatomy of the Oil Pollution Act of 1990 to help academics, lawyers, judges, and students navigate its recondite provisions with relative ease. This treatise consists of eighteen chapters. Chapter one discusses the scope of the Oil Pollution Act 1990. Chapter two analyzes the defenses to liability. Chapter three examines the procedures for asserting claims against a responsible party. Chapter four explores removal costs under OPA. Chapters five, six and seven dwell on issues relating to damages, recovery of interest, and limitation of liability respectively. Chapters eight and nine of this treatise focus on the effect of the Oil Pollution Act of 1990 on the insurance structure for oil pollution in US and international waters. The two chapters briefly discuss the financial responsibility requirements and the international oil pollution regimes as they relate to marine insurance. Chapter ten discusses contribution, indemnity and third part liability. Chapters eleven, twelve and thirteen examine the National Pollution Funds Centers Oil spill liability Trust funds, recovery by foreign claimants, as well as jurisdictional and procedural issues respectively. Chapters fourteen, fifteen, and sixteen comprehensively analyze the non-preemption clause, as well as the interaction between OPA and its predecessor statutes dealing with oil and other pollutants, as well as time limitations respectively. The overall analysis undertaken in this treatise would be helpful to governments at all levels (domestic & foreign), and also to

the maritime & transportation, environmental, oil & gas, energy, insurance, banking & financial services, real estate, and hospitality industries. This treatise attempts an extensive textual analysis of the compensation and liability sub-chapter of the Oil Pollution Act of 1990 (OPA). This treatise also includes an extensive analysis of OPA jurisprudence and non-OPA jurisprudence construing pre-OPA statutes regulating oil and hazardous substance pollution. Its comprehensive analysis of non-OPA jurisprudence would provide guidance to academics, lawyers, judges, students and several business industries in their bid to construe the intricate provisions of the Oil Pollution Act of 1990. The author of this treatise has reproduced the relevant sections of OPA, at the beginning of each discussion of the most important sections of the OPA.

Fortunately for his kingdom his young queen, Bywyd was as

sharp as he was dull. She advised him in all matters of state, and benevolently attended concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.

Im shaking apart inside Tremors that are too fine to be seen or felt Maybe i can hear them though? If I listen v carefully Cool. Im not really sure why. Maybe minds are meant to fall apart when theyre as delicately stitched together as mine? Ooh or Im picking at the metaphorical seams because Im just so godsdamned bored! Yas. Lets make this an intentional thing Consequences of choices are always easier to stomach Even if theyre shitty Mm. Learn to trust your audience, right? Youre all such bright young things. Your capable and endlessly receptive. Just Like me.
