

Edibles 2016 calendar

The EDIBLES calendar 2016 is a full color wall calendar photographed and designed exclusively by Robert Kaufman. The images are exclusively fruits and vegetables and are photographed with existing light most often in situ. Each image is designed to provoke a new way of seeing and thinking about its Subject. The EDIBLES calendar has more than stood the test of time having been published since 1978. The calendar is printed on the highest quality paper stock with a laminated cover. There is more than ample room in the monthly grids to write in important dates and other appointments and activities. This calendar is ideal for every kitchen, large or small, it decorates the walls with these magnificent photographs for the entire year. What better way to celebrate food and fine art photography. What better gift for under \$15.00.

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended

concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet “May it please your Majesty.” So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
