The book series is a major update with new cases, notes and commentary in all subjects. Significantly, it is also an expansion to new areas of land use regulation that make the book more modern and comprehensive than its competitors. New topics include a chapter on Global Warming, Greenhouse Gas Emissions, Renewable Solar and Wind Energy, Rainwater Capture and Conservation, and Green Development Standards; a new section on Zoning Litigation, which covers ripeness, finality and exhaustion of remedies, standing, statutes of limitations, and judicial review. There is also a new section on hillside preservation as well as a new section on federal and state transportation and regional land use plans to control urban sprawl. Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
