

Remaking Law Firms: Why and How

The traditional law-firm business model has delivered technically excellent service at seemingly whatever cost. But the times have changed, with the global financial crisis only accelerating the price-down pressures, commoditization, and client demand for efficient, business-relevant services. To respond, law firms will have to go beyond cutting costs while preserving the general way they win work, produce work, and govern themselves. Law firms need to adopt business models that are better adapted to serve their clients not just today, but well into the future. To succeed under the changed circumstances, law firms need to remake their business models in accord with the needs of their commercial clients. This book provides examples of innovative and successful business models from remade law firms. Ultimately, this book is meant to fuel a desire for change in law firms that goes beyond thinking and planning, and leads straight into the messy, frustrating, exciting world of implementing change, and ultimately to better client service.

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
