

How to Make a Nation: A Monocle Guide

What characteristics and values define a country? Which countries are particularly successful in terms of education, economics, or culture? In this book, Monocle provides a global perspective on the distinct qualities of nations. Monocle's books with Gestalten have shown you how to build a better life, business, and home. But now Monocle raises the bar: how do you run a great country? They are not talking about might, muscle, or nationalism — although you need a bit of a swagger every now and then. They are talking about a country that feels like a cohesive community, knows what to value, and goes out into the world to gently get its way with soft power, fine ambassadors, and compelling cultural offerings. At home, this country celebrates good education, well-made institutions, and its own people and their skills. *How to Run a Nation: A Monocle Guide* is a thought-provoking primer that informs and inspires. The best ideas don't need to be invented — they need to be found and copied. Let Monocle be your guide.

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
