

Evidence: Cases Commentary and Problems (Aspen Casebook)

The casebook focusing on core concepts and central controversies in evidence law. With well-selected and tightly edited cases, this casebook offers thoroughly up-to-date coverage of technical and jurisprudential developments in scientific proof. Specifically, the fourth edition contains a dozen new cases while also dropping older material made redundant by the additions. The author has replaced the Supreme Court's confrontation decisions in *Davis v. Washington* and *Michigan v. Bryant* with the Court's 2015 decision in *Clark v. Ohio*. The Court's 2012 decision in *Williams v. Illinois*, regarding confrontation and expert witnesses, has replaced *State v. Lewis*. And *Warger v. Shauers*, the Court's 2014 decision applying Federal Rule of Evidence 606(b), has pushed aside *Tanner v. United States* and *People v. Fleiss*.

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended

concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
