

## A Calendar of Dinners with 615 Recipes

A Calendar of Dinners was originally published in 1913 and contains 615 recipes. The culinary world revised its entire cookbook on account of the advent of Crisco, a new and altogether different cooking fat. Many wondered that any product could gain the favor of cooking experts so quickly. A few months after the first package was marketed, practically every grocer in the United States was supplying women with the new product. This was largely because four classes of people: housewives "chefs" doctors "dietitians" - were glad to be shown a product which at once would make for more digestible foods, more economical foods, and better tasting foods.

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning

and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
