

The Poverty Industry: The Exploitation of America's Most Vulnerable Citizens (Families, Law, and Society)

always go where itâ€™s supposed to. Foster care agencies team up with companies to take disability and survivor benefits from abused and neglected children. States and their revenue consultants use illusory schemes to siphon Medicaid funds intended for children and the poor into general state coffers. Child support payments for foster children and families on public assistance are converted into government revenue. And the poverty industry keeps expanding, leaving us with nursing homes and juvenile detention centers that sedate residents to reduce costs and maximize profit, local governments buying nursing homes to take the facilitiesâ€™ federal aid while the elderly languish with poor care, and counties hiring companies to mine the poor for additional funds in modern day debtorâ€™s prisons. In The Poverty Industry, Daniel L. Hatcher shows us how state governments and their private industry partners are profiting from the social safety net, turning Americaâ€™s most vulnerable populations into sources of revenue. The poverty industry is stealing billions in federal aid and other funds from impoverished families, abused and neglected children, and the disabled and elderly poor. As policy experts across the political spectrum debate how to best structure government assistance programs, a massive siphoning of the safety net is occurring behind the scenes. In the face of these abuses of power, Hatcher offers a road map for reforms to realign the practices of human service agencies with their intended purpose, to prevent the misuse of

public taxpayer dollars, and to ensure that government aid truly gets to those in need.Â

Fortunately for his kingdom his young queen, Bywyd was as sharp as he was dull. She advised him in all matters of state, and benevolently attended concerned citizens and visiting dignitaries alike, always with a graceful nod to her husband and a quiet "May it please your Majesty." So it was that they ruled in peace for many years troubled only by the lack of Ysbryd-ane an heir to carry on the divine dragon blood of Gwirions ancestors. When Bywyd found herself full with child at last she rejoiced that their kingdom would be secured, their rule assuredly peaceful for the rest of their lives. And when the child was born, with raven black hair so dark against eyes as blue as lightning and skin as pale as snow, they called her Eirwyn and raised her to understand the five aspects of the dragon that she must ever personify to rule her people. Before her sixth birthday, Eirwyn was already tired of the dusty words she had learned by rote.
